**TITLE: Consideration of Provisional Approval of the University of Hawaii at Manoa's College of Education Added Field Program in Special Education Mild/Moderate and Special Education Severe/Profound**

---

The Hawaii Teacher Standards Board approves the request from the University of Hawaii at Manoa's College of Education for the COE Department of Special Education's Post Baccalaureate Program in Special Education to offer a new track to be used to add Special Education to an existing Hawaii teaching license.

The program may recommend candidates for licensure in the following fields:

- Special Education Mild/Moderate PK-3, K-6, 6-12
- Special Education Severe/Profound PK-3, K-6, 6-12

Details of the program, coursework, assessments, and faculty are attached.

This program track will become part of the College of Education's accreditation review in 2028.

The HTSB Executive Director will inform the program of this decision, post information to the HTSB website, and inform the Department of Education and Charter Schools about this new route to special education licensure.

**MEMORANDUM**

March 15, 2021

TO: Dr. Lynn Hammonds, Executive Director  
Hawai'i Teachers Standards Board

FROM: Amelia Jenkins *Amelia Jenkins*  
Interim Associate Dean for Academic Affairs

The College of Education, University of Hawai'i at Manoa, is requesting that the Hawai'i Teachers Standards Board approve the new add-a-field licensure request in the specialty area of Special Education. The Department of Special Education offers a Post Baccalaureate in Special Education: Mild/Moderate and Severe/Autism tracks, which are approved for initial teacher licensure. We are submitting 18-credits of coursework from that HTSB approved program to be considered for add-a-field in either mild/moderate or severe disabilities. The coursework and required assessments are the same as offered in the PB SPED program, excluding a focus elective, field experiences, and student teaching for the add-a-field option.

We look forward to receiving your approval to add this program to our list of approved education licensure programs. The completed *HTSB Educator Preparation Added or New Fields Program Review Template* is attached. Also included for your review are: (1) a list of faculty, (2) the department organizational chart, and (3) the required assessments: Dispositions and assignments in courses SPED 601, 603, 614, 618, and 620.

Should you have any questions please contact Amelia Jenkins, Interim Associate Dean for Academic Affairs, at 956-4278/7704 or by email at [amelia@hawaii.edu](mailto:amelia@hawaii.edu).

### 5. If this is a new program, attach an organizational chart of your institution/agency and, if applicable, college/school/department showing the placement of this program.

Organizational chart attached.

6. Justification for implementing the program. Summarize the current market for this program's completer employment outlook and any other contexts that shape the program.

Given the chronic and severe shortage of licensed special educators in Hawaii, many special education positions are staffed by educators who are teaching out-of-field. The University of Hawai'i at Manoa special education recruitment specialist reports that she receives 20-30 requests per year from licensed teachers for a program that will allow them to add the field of special education to their licenses. Currently, the only program we can offer these educators seeking to obtain a special education license is a 4-semester 31-credit Post-Baccalaureate program (plus 4 credits of prerequisite coursework). The add-a-field options that we are requesting (Special Education - Mild/Moderate Disabilities; Special Education - Severe/Profound Disabilities) include all but one of the required Post-Baccalaureate coursework, requiring a 3-semester 18-credit program. All of the Post-Baccalaureate coursework includes field-based assignments; additional field work and student teaching are, therefore, not included in the proposed Add-a-Field options.

## ADDING A NEW PROGRAM, ADDED FIELD PROGRAM, OR NEW FIELDS TO EXISTING PROGRAM

To add a new license field or program during a continuing state approval term, Hawaii approved units are required to submit information regarding coursework, faculty, and assessments/rubrics that are in addition to or different from unit criteria approved at the most recent unit review.

Additional Information Helpful to the Review Team

Note that these are the required courses in the University of Hawaii at Manoa Post-Baccalaureate in Special Education State Approved Teacher Education Program, except for a 3-credit focus course in preschool or secondary special education. Field experiences and student teaching are not required because add-a-field candidates are already licensed teachers. All courses required in this program include "applied" assignments.

# SPED 601 Final Project Description & Rubric

## Objectives for this assignment:

- To apply the **technology skills** and **instructional and assistive technology concepts** you have learned in SPED 601 to a practical project that is useful for your student(s).
- To use the **assistive features of digital tools** to support students and address IEP objectives.
- To use the UDL Design Cycle to integrate a technology strategy in a way that supports learning goals for a student(s).
- To reflect on the process of creating your project.

## Components of the Project

### 1. **THE TECHNOLOGY PROJECT** (10 points)

The “technology project” is the product you create (for or with a student or child). To create this technology project, you will use technologies and universal design strategies we have learned in class. You can do a project similar to the *Do It Yourself projects* for this course or design a project that uses a combination of the ideas/technologies you learned about.

<b>If you are a teacher, student teacher or work with students in some other capacity</b>	<b>If you do not work at a school</b>
Develop a technology project with (or for) a student or students in your class.  The project should incorporate concepts we have studied in SPED 601, including the use of assistive features with instructional strategies and application of Universal Design for Learning principles to support academic, behavioral or social objectives.	Please contact me to discuss alternate ways to do this project if you do not work at a school and have no access to a classroom.

### **Things to consider as you develop your technology project.**

- Consider the UDL Design Cycle (from Module 1). What are your goals for the lesson or project and how can you reduce barriers and support student needs/preferences? *OPTIONAL: If you would like you can use this [UDL Design Worksheet](#) to plan your project.*
- What are the IEP objectives for your selected student(s)? How can you support the student’s strengths and incorporate elements that will be engaging for the student?
- For this project, which specific skills do you want to address for the student(s) you will work with? Consider academic, social and behavioral skills.
- Think about the process of creating this project with your student(s). Consider how to break the project down into steps (if necessary) and work over a span of time.

### 2. **FINAL PAPER** (20 points)

In this paper, describe the **process of making your project and your reflections about how the process went.** (See required elements for final paper on p.2.)

## **Required Elements for the Final Paper:**

## I. Introduction & Background

- a) Describe the **student(s)** you worked with and the skills you were supporting with this project. Be specific in your description of academic and/or behavioral/social objectives.
- b) Describe **the goals of the lesson or project** for your student(s). (Step 1 of UDL Design Cycle - Goals)
- c) Describe how you selected **instructional and/or assistive technology** to address barriers, student needs and/or preferences. (Step 2 of UDL Design Cycle)

## II. Process and Connections to SPED 601 concepts

- c) Describe the **PROCESS of developing and creating the project** with the student (Step 4 of UDL Design Cycle - Methods).
- d) Select **at least three specific UDL checkpoints** and **explain how** the process of making this project addressed those checkpoints (<http://www.udlcenter.org/aboutudl/udlguidelines>)  
NOTE: *Be specific and detailed. Identify the specific checkpoints such as 2.1, etc. and state how/why the process of making the project addressed the selected checkpoints.*

## III. Synthesis and Reflection

- e) Reflect on the **process and outcome**.
  - What did you learn through the process of making this project?
  - What worked and what would you change if you did the project again?
  - What were the outcomes for the student(s) you worked with?

*You are not limited to these sections, but you should include the info above. You can use your own headings/sub-headings within your paper if you prefer.*

### **SPED 603: Behavior Intervention Project – Description & Rubric**

The candidate will develop four positive behavioral interventions for common or actual behavioral needs in a general education field setting, special education field setting, clinic setting, or a home/community setting. The four interventions will be:

- a. One intervention that addresses a group/class-wide behavioral need.
- b. One intervention that addresses an individual's behavioral need and must improve.
- c. One intervention addressing a functional living skill or academic skill.
- d. One intervention addressing a social skill.

Plans must demonstrate an accurate application of each intervention procedure, include a fidelity checklist and data collection plan, and a meaningful analysis and interpretation of the data.

SPED 614 – Instructional Programs Assessment

Description of Assessment

Develop two individual instructional plans. The plans must address the following strategies/content areas to individualize instruction and enhance critical thinking, problem solving, and performance skills:

- a) chaining and self help or school routines
- b) errorless instruction and functional academics

All programs are to be implemented in inclusive school or community activities/settings. Each instructional plan must include (a) behavioral objective, (b) scheduling matrix indicating when the skills will be taught, (c) modifications of learning environments (d) stimulus control procedures (e.g., explicit modeling, efficient guided practice, etc.), (e) consequences for a correct response, incorrect or partial response, and no response, (f) maintenance and generalization techniques, (g) data collection procedures, and (h) data sheets and graphs. All elements must be labeled (plans, data sheets, and graphs) with appropriate identification information (student name [an alias must be used for the assignment], plan name, author, plan start date, plan completion date).

## **SPED 618 Case Study Project – Description & Rubric**

The *Case Study Project* includes a description of the student with severe disabilities or autism spectrum disorders and an individualized support plan. Candidates describe the student, his/her characteristics and the impact of those characteristics on the student's learning and life experiences. Candidates use this information to develop an individualized support plan in the areas of cognitive/academic, communication, social and motor skills that will increase the student's access to inclusive environments. The *Case Study Project* also includes a plan for training and monitoring classroom staff including paraeducators to learn and implement the supports.

### **Case Study Description**

SPED 618 – The *Case Study Project* is a required assignment. Each student completes a *Case Study Project* that includes a comprehensive case study and individualized plan for a student with severe disabilities/autism spectrum disorders who has significant social/educational needs. (Your case study target student should be the same one that you have used in the two previous assignments.) Complete an individualized plan that does the following: (a) fully describes (i.e., what, how, when, who) 1-5 instructional strategies, supports/adaptations and materials for each of the following domains: cognitive/academic, communication, social and motor skills (all supports should increase the student's access to inclusive environments), (b) provides a rationale for the selected strategies/supports matching each to the individual's characteristics and needs previously identified, and (c) includes a plan for training and monitoring classroom staff to learn and implement this individualized plan.

## Effective Practices Synthesis Paper – Description & Rubric

The *Effective Practices Synthesis Paper* is a synthesis of evidence-based information on strategies for teaching content areas math, science, and social studies. To complete the *Paper* the candidate (a) finds a minimum of eight studies (four each from two of the following areas: math, science, social studies) that describe teaching methods in these areas for students with disabilities, from educational journals (approved by the instructor), (b) critically reflects on effective practices for teaching math, science and social studies to diverse student populations and (c) describes how the research could be put into practice in a public-school setting.

### Effective Practices Paper Description

SPED 620 – *Effective Practices Synthesis Paper* includes a synthesis of information on teaching methods and effective practices for teaching content areas: math, science, social studies that you have researched, analyzed, and described the application for a public school setting. You are required to: (a) find a minimum of eight studies (four each from two of the following areas: math, science, social studies) that describe teaching methods in these areas for students with disabilities, from educational journals (approved by the instructor), (b) critically reflect on effective practices for teaching math, science and social studies to diverse student populations and (c) describe how the research could be put into practice in a public school setting.

Your paper should include the following:

- Introduction/Rationale that describes the student population and characteristics that warrant intervention
- Description of at least 8 effective practices
- Effective practices are appropriately cited
- A summary of the effective practice from the articles and a synthesis of this knowledge gained
- A description of the application of the practice in a public-school setting

### Overview and Directions

Establishing and maintaining appropriate professional dispositions is essential to being a successful teacher. Teacher candidates must demonstrate appropriate dispositions in all aspects of their professional lives, including: UHM classes, field-based courses, public and private settings, face-to-face and online. This assessment is a tool to reflect on candidate performance, engage in relevant discussion about dispositions, and help candidates work to maintain and/or develop appropriate dispositions. Candidates, UHM faculty, and applicable school partner personnel (mentor teachers, principals) may initiate the use of this form at any time and as program policies dictate. This assessment will be completed during all field and student teaching experiences.

Candidates/applicants are scored on their professional dispositions using the following rubric. **For each disposition note a check in the “Meets Expectation” column if the indicated “Meets Expectation” criteria are met. Specific and observable written evidence must be included in the comments if the candidate/applicant is being scored either “Needs Improvement” or “Exceeds Expectation.”**

**N** = Not Applicable or not observed (in cases where specific dispositions may not apply)

**NI** = Needs Improvement. Does not meet all of the indicated criteria. Comments are required.

**ME** = Meets Expectations. Meets all of the indicated criteria.

**EE** = Exceeds Expectations. Performs above and beyond all of the indicated criteria. Comments are required.

Signatures acknowledge that all relevant parties have discussed and understand the assessment.

**A. TITLE: Consideration of Provisional Approval of the University of Hawaii at Manoa's College of Education Added Field Licensure STEM Program**

---

---

The Hawaii Teacher Standards Board accepts HTSB Review Team recommendation to grant provisional state approval to the University of Hawaii at Manoa's College of Education Master of Curriculum Studies STEMS<sup>2</sup> program to add fields to an existing Hawaii license.

The state approved teacher education (SATE) review team recommends provisional approval for the license fields of STEM K-6 and 6-12 added field program.

**Program Strengths**

- The coursework is appropriate and valuable to teachers who are adding the field of STEM (K-6 and 6-12).
- The assessments submitted by the program have the potential to provide strong evidence for meeting all pertinent standards. Each assessment is supported by a well-written rubric.
- The development of a sense of place and hands-on learning experiences are strong components of the program.
- All faculty listed are suitable for this field of study.

**Any Weakness or Recommendation for Improvement**

- None

The program may recommend completers for added field licensure for the following license fields:

- STEM K-6, 6-12

The program may also recommend previous program completers if they meet the same criteria required by the current program approved for licensure.

This program shall be included in the provider's 2028 accreditation review.

**SATE REVIEW TEAM RECOMMENDATIONS**

The State Approved Teacher Education (SATE) Review Team recommends provisional approval for the Master of Education in Curriculum Studies **STEMS<sup>2</sup> K-6 and 6-12** added field program.

**RATIONALE**

**Program of Study:** The coursework is appropriate and valuable to teachers who are adding the field of STEM K-6 or 6-12.

**Standards & Assessments:** The assessments submitted by the program have the potential to provide strong evidence for meeting all pertinent standards. Each assessment is supported by a well-written rubric.

**Faculty:** All faculty listed are suitable for this field of study.

**PROGRAM JUSTIFICATION:**

It is reported that there is a shortage of STEM teachers nation-wide with more than half of the school districts in the U.S. reporting difficulty in recruiting and retaining qualified STEM teachers. The UHM COE seeks to address the teacher shortage by preparing educators with the knowledge and expertise in STEM disciplines.

## REVIEW TEAM RECOMMENDATION TO HTSB

The state approved teacher education (SATE) review team recommends provisional approval for the license fields of STEM K-6 and 6-12 added field program.

### Program Strengths

- The coursework is appropriate and valuable to teachers who are adding the field of STEM (K-6 and 6-12).
- The assessments submitted by the program have the potential to provide strong evidence for meeting all pertinent standards. Each assessment is supported by a well-written rubric.
- The development of a sense of place and hands-on learning experiences are strong components of the program.
- All faculty listed are suitable for this field of study.

### Any Weakness or Recommendation for Improvement

- None

### Follow-up Questions from the Review Team

- For students pursuing Plan A, where are the Plan A advisors imbedded in this process?

**Answer:** Students can pursue one of two options for their capstone project, a Plan A or Plan B. Depending of the project path students select that are assigned a Plan A or Plan B advisor at the start of the Fall semester of their program. To date students have only selected the Plan B pathway. This is why only Plan B advisors are listed in the application. Below is a more detailed description of the difference between the Plan A and Plan B.

Plan A:

Plan B:

Link to UH Manoa Graduate Description of a Plan B - <https://manoa.hawaii.edu/graduate/masters-plan-b/>

- For students pursuing Plan A, what rubric(s) are in place for their Plan A thesis?  
**Answer:** There is no specific rubric for the Plan A or the Plan B however student are required to follow the content guide [found at this link](#).
- In the Sense of Place (Nā Hopena A‘o and beyond) portion of the table located in the Unit Plan Front Matter Template, what information would be imbedded into this part of the table?

**Answer:** Student will share which Nā Hopena A‘o learner outcomes that are addressed in their unit. All students are required to align their unit plan development with Nā Hopena A‘o. The "beyond" part of the box provides the space for students to add other standards or learner outcomes not address by the primary standards (i.e., NGSS, Common Core, C3, etc...) or Nā Hopena A‘o. For example, Hawaiian Immersion school and some charter school have additional standards and/or learning outcomes.

**TITLE: Approval of Revisions to Hawaii Administrative Rules**

---

The Hawaii Teacher Standards Board approves the following revisions to Hawaii Administrative Rules.

The Executive Director shall implement the administrative rule process:

1. Submit the revisions to the Attorney General's office for review as to form.
2. Following approval by the Attorney General's office, the revisions will be submitted to the Governor's office for approval to hold a public hearing.
3. The hearing shall be advertised and held according to state law.
4. Testimony from the hearing will be submitted to the HTSB for review and possible additional revision. If there is significant revision, steps 1 through 4 will be repeated.
5. If there is no additional revision, the rules shall be returned to the Attorney General for approval as to form.
6. Once signed, final approval will be requested from the Governor for the revisions to become law.
