**E. EXECUTIVE DIRECTOR'S REPORT**

Board Chairperson Miyamae introduced Executive Director Felicia Villalobos to share her report. Villalobos stated her report consisted of data and survey results from the entire 2024-2025 school year, which would be used to help determine where Hawai'i teachers needed more support, as well as how Hawai'i educator preparation programs (EPPs) could be better supported by HTSB pertaining to Hawaii Administrative Rules (HAR) and Hawai'i-specific requirements. Villalobos also highlighted the following from her report:

- Highest number of logins in HTSB's licensing management system (LMS) were January, June, and July.
- Highest number of licenses and permits were issued in July.
- Concerningly high number of emergency hires in elementary education and counseling, meaning students were being taught by individuals who did not go through a state-approved teacher education program (SATEP).

- The need for a central data system to be implemented with public charter schools for better faculty information-gathering, as it was currently being done manually.
- The number of Hawai'i Department of Education (HIDOE) teachers employed and teaching without a valid license or permit dropped to zero with the help of the NEOED system.
- The collected survey data regarding which state a SATEP was approved for licensure in could help HIDOE with recruitment.
- The need for teachers to understand the difference between the profession-specific Model Code of Ethics for Educators (MCEE) and the state ethics compliance, which was required for all state workers.

Board Chairperson Miyamae asked the full board (Board) if they had any questions or discussion. There were no questions or discussion from the Board. Board Chairperson Miyamae asked Villalobos to continue her update on the following conferences:

- **Attended National Association of State Directors of Teacher Education and Certification (NASDTEC) Annual Conference**

Villalobos highlighted that this conference brought all the licensing agencies from across the country together. She stated Board Members and HTSB staff could make connections with staff from these other agencies and hear about national trends.

Board Member Raymond shared that one-third of new teachers in Colorado leave the profession within the first five years, and that 37% of Colorado's districts have mentor programs. Board Vice Chairperson Ozaki stated she was interested to hear what other states were doing to address teacher retention, as pay and support were always attractions to the profession. Board Member Soares shared her observation that many states seemed to be lowering their bars to address their teacher shortages. She commended the Board for keeping its bar high because teacher quality was important.

Villalobos shared that HTSB received compliments from executive directors of other licensing agencies for bringing Board Members to this conference.

- **HTSB Summer Summit and Strategic Planning Update**

Villalobos shared that HTSB received many compliments from stakeholders for the networking opportunities that the Summer Summit provided. She stated staff was currently working on synthesizing all the information from the summit.

Board Member Raymond thanked Villalobos and staff for giving the Board this opportunity. Board Member Gillentine thanked staff and shared that asking stakeholders for their input was very valuable. Board Chairperson Miyamae thanked Villalobos and staff, sharing that it was always interesting speaking with stakeholders and hearing their perspectives.

Licensing Specialist Dr. Jennifer Padua thanked the EPPs for showing their commitment and helping HTSB improve teacher quality and licensure. Villalobos thanked Hawai'i Pacific University (HPU) for hosting the summit. She also thanked Licensing Specialist Kaulana Molina, NBCT, and staff. She shared that a post-summit survey comment indicated that stakeholders now understood licensing better.

- **National Conference of State Legislatures (NCSL) – Board Member Raymond and Licensing Specialist Dr. Mitzie Higa**

Board Member Raymond shared that many of the sessions at this conference focused on artificial intelligence (AI), highlighting that a challenge and concern was not having the respective professions at the table when designing AI, especially for health and education. She also highlighted that Massachusetts was regarded as having one of the best education systems in the world, but student attendance was one of their challenges.

She thanked Dr. Janet Kim from UH Mānoa for working with and putting together an event on Statehood Day for the TAP teachers and Educators Rising program creators. She expressed that the hope is for this pre-apprenticeship program to be the bridge to the registered teacher apprenticeship program. She then highlighted that one year had passed for the \$4.6 million federal three-year grant that was sitting with the Department of Labor and Industrial Relations (DLIR). She explained that this money would support a pilot program to help gather data to receive different funding for registered teacher apprenticeship. She stated HIDOE and the Hawai'i State Teachers Association (HSTA) were still in the consult and confer process for the grant.
