(f) Decisions and orders. Decision-making shall be made in closed session. Every decision and order adverse to a party to the proceeding, rendered by the Board, shall be in writing or stated in the record and shall be accompanied by separate findings of fact and conclusions of law. The court-in-the-district may permit other interested persons to intervene.

(i) There is a likelihood that the subject person will prevail on the merits of an appeal from the administrative proceeding to the court;

(ii) Irreparable damage to the subject person will result if a stay is not ordered;

(iii) No irreparable damage to the public will result from the stay order, and

(iv) Public interest will be served by the stay order.

INTRODUCTION

The board adopted the Interstate Teacher Assessment and Support Consortium (InTASC) new “core teaching standards” which represent a major revision to the Model Standards for Beginning
Teacher Assessment and Development. No longer limited to assessment and support of new teachers, the new standards define standards of professional practice for all teachers.

There are ten individual standards organized into four priority areas:

The Learner & Learning (standards 1-3)
Content (standards 4-5)
Instructional Practice (standards 6-8)
Professional Responsibility (standards 9-10)

Each standard is divided into the areas of performances, essential knowledge, and critical dispositions.

The core teaching standards include a focus on 21st century knowledge and skills; personalized learning for diverse learners; a collaborative professional culture; improved assessment literacy; and new leadership roles for teachers and administrators.

The core teaching standards describe what teachers should know and be able to do in today’s learning context to ensure students attain these learning goals, as well as encourage teachers to build literacy and thinking skills across the curriculum, and help students address multiple perspectives in exploring ideas and solving problems. The core teaching standards also address interdisciplinary themes and the teacher’s ability to build on content that draws upon multiple disciplines.

By statute, the Governor appoints members of the Hawai‘i Teacher Standards Board (HTSB) from a list of qualified nominees submitted by departments, agencies, representative constituent organizations and current members of the Board. The fifteen-member Board is composed of not less than six licensed classroom teachers regularly engaged in teaching at the time of their appointment; three educational officers employed at the time of their appointment; the Chair of the Board of Education or his/her designee; the State Superintendent or his/her designee; the Dean of the University of Hawai‘i College of Education or his/her designee chosen from the Teacher Education Coordinating Committee; a representative of the independent schools; and two public representatives. Statute changes in 2014 required one teacher representative to be a charter school teacher.

INTRODUCTION

Act 240 of the Eighteenth Legislature, State of Hawai‘i, established the Hawai‘i Teacher Standards Board in 1995. The Board originally consisted of nine members, including four licensed teachers, three educational officers, the chairperson of the Board of Education, and the Dean of the University of Hawai‘i College of Education. The purpose of Act 240 was to transfer the responsibility for setting public school teacher certification standards from the Department of Education to the Hawai‘i Teacher Standards Board. The Board assumed responsibility for licensing of teachers in 2002. In addition to establishing standards for the issuance of licenses and credentials, the Board’s powers also include:

► Setting and administering its own budget;
► Adopting, amending, repealing, or suspending the policies, standards, or rules of the Board in accordance with Chapter 91;
► Receiving grants or donations from private foundations;
► Submitting an annual report to the Governor and the Legislature on the Board’s operations;
► Conducting a cyclical review of standards and suggesting revisions for their improvement;
► Establishing licensing and credentialing fees in accordance with Chapter 91;
► Establishing penalties in accordance with Chapter 91;
► Issuing, renewing, forfeiting, restoring, conditioning, revoking, suspending, and reinstating licenses;
► Developing criteria for a full career and technical education license, limited to career and technical education teaching assignments, allowing qualified individuals with at least an associate’s degree, pedagogy coursework, industry experience, and content expertise to teach;
► Reviewing reports from the department on individuals hired on an emergency basis;
► Applying licensing standards on a case-by-case basis and conducting licensing evaluations;
► Preparing and disseminating teacher licensing information to schools and operational personnel;
► Approving teacher preparation programs;
► Establishing policies and procedures for approving alternative pathways to teaching;
► Administering reciprocity agreements with other states relative to licensing;
► Conducting research and development on teacher licensure systems, beginning teacher programs, the assessment of teaching skills, and other related topics;
► Participating in efforts relating to teacher quality issues, professional development related to the board’s standards, and promotion of high teacher standards and accomplished teaching;
► Adopting applicable rules and procedures.

Vision and Mission

The HTSB envisions a highly esteemed public education system with rigorous professional teacher standards that foster student success. Our mission is to collaboratively set high teacher licensing and credentialing standards to:

► Provide every child with qualified teachers.
► Promote professionalism and teaching excellence.
Build public confidence in the teaching profession.
Provide more accountability to the public.

Executive Summary

The HTSB has full responsibility for establishing teacher, school counselor and school librarian licensing standards, and issuing licenses to education professionals who meet the criteria. The Board issues three tiers of licenses and three kinds of special permits. The Board approves Hawai'i based state approved teacher, counselor and librarian Educator Preparation Programs (EPP); reports to the federal government on licensing and teacher education programs under Title II; and approves, validates and adopts licensure tests. The Board also participates in efforts related to teacher quality, including support for National Board for Professional Teaching Standards (NBPTS) candidates. In addition, the Board establishes penalties for teacher misconduct that may result in the suspension or revocation of a license.

In the past year, the Board completed a three year revision of its Hawaii Administrative Rules. Changes broaden options for teachers to become licensed or add a new field to an existing license; added rules for approval of educator preparation programs and reformatted the rules into more user friendly subchapters.

HTSB thanks the Governor and the Legislature for their continued support and looks forward to working together to serve Hawai'i’s teachers and ultimately Hawai'i’s students, families and communities.

2013-2014 Accomplishments

The HTSB continues to improve its services to Hawai'i professional educators while enhancing the licensing process and working effectively with state and national partners. Between July 1, 2013 and June 30, 2014, the Board adopted the following new policies and procedures:

Licensing:
- NBI 13-14 approved a direct process for Hawaii educator preparation programs to report teacher candidate verification of basic skills and content knowledge, so that when an EPP reports to HTSB that a candidate has completed their program they are ready to be licensed;
- NBI 13-17 added the Career and Technical Education (CTE) license field of Health Services and Health Services Vocational;
- NBI 13-29 added the following license levels to existing license fields:
  - K-6 and K-12 to the CTE fields;
  - P-3, K-6 and 6-12 to the field of Reading Specialist;
  - K-6 and 6-12 to the field of School Librarian;
- P-3, K-6, 6-12 and K-12 to the field of Literacy Specialist;
- K-6, 6-12 and K-12 to the field of Online Teaching
- NBI 13-21 approved the requirements for the new field of Teacher Leader;
- NBI 13-22 approved the requirements for the new Literacy Specialist license field;
- NBI 13-33 approved the requirements for the new Online Teaching license field;

**Legislative:**
- NBI 13-26 approved revisions to HTSB’s Hawaii Administrative Rules. The rules are currently awaiting final approval by the governor;
- Act 39 (SLH 2014) (SB2331 SD2 HD1) was approved by the Governor after passing through both houses of the Legislature. This bill clarifies the HTSB nomination process and the requirements of the Charter School Commission and Charter School Governing Boards in reporting licensees and emergency hires to HTSB;

**Teacher Standards:**
- NBI 13-24 adopted the Council for Accreditation of Educator Preparation (CAEP) unit standards, which will be used to review Hawaii programs undergoing national accreditation;

**Teacher Education:**
- NBI 13-04 granted full state approval to Kaho‘iwai, the first native Hawaii focused teacher preparation unit to attain national accreditation from the Teacher Education Accrediting Council (TEAC);
- NBI 13-08 granted continued full approval to the University of Hawaii’s Hawaii Language Educator Preparation Program;
- NBI 13-09 granted continued full approval to the University of Hawaii’s Hawaii Language Immersion Educator Preparation Program;
- NBI 13-10 granted continued full approval to the University of Hawaii’s Visual Arts Educator Preparation Program;
- NBI 13-11 granted continued full approval to the University of Hawaii’s Library and Information Science Educator Preparation Program;
- NBI 13-12 granted full state approval to the University of Hawaii-West Oahu unit and elementary education program based on their National Council of Accreditation of Teacher Education (NCATE) accreditation;
- NBI 13-19 granted full state approval to iTeach-HAWAII based on their NCATE accreditation in the following fields: English, mathematics, science, world languages, physical education and health;
- NBI 13-25 allows iTeach-HAWAII to develop program plans to offer preparation in the following fields once reviewed and approved by the HTSB: CTE, Teaching English to Speakers of Other Languages (TESOL), elementary education and special education;

**Licensure Testing:**
- NBI 13-31 adopted yearly changes to tests offered and updated score reports for Educational Testing Service (ETS) tests;
- NBI 13-32 set a passing score for the Stanford edTPA, a performance assessment, for use in the alternative route to licensure
Operational:
- NB13-03 identified priorities for HTSB's Executive Director under the EMCP Performance Evaluation System;
- NB13-05 approved deployment of a mobile app developed by Hawaii Information Consortium (HIC) at no cost to allow public lookup of HTSB issued licenses via mobile devices;
- NB13-28 broadened the educational requirements for the HTSB's Licensing Specialist position to include educational degrees as an option in addition to business;
- Approved reappointment of the Executive Director.
In 2011-2012, the Board adopted new performance standards for teachers, school counselors and school librarians. Subsequently, in 2012-2013 HTSB worked with all three groups of educators to produce informational videos and generate resource materials to assist educators in learning about the new standards and implementing them into their practice. These videos were distributed on DVD to all Hawai‘i public schools and posted on the HTSB website. In 2013-2014 new standards were implemented for educator preparation programs.

Tables depicting the Standards may be found in Appendix A.
Licensing Requirements

HTSB licensed over 1,300 new teachers and renewed approximately 500 existing licenses. Because of the cyclical nature of license renewal there was a significant drop in the number of license renewals from the prior year. The online license system was expanded to include Advanced License and Added Field online applications and viewing of documentation by applicants and licensees.

The Board continued the audit of license renewals for those teachers who are required to renew their licenses. Drawing upon a random selection of teachers renewing statewide, teachers submit the documentation to substantiate that they met the Teacher Performance Standards and had satisfactory teaching experience within five years prior to renewal.

Requirements for licensing may be found in Appendix B.

Renewed Licenses

Teachers have used the HTSB online licensing system since July 1, 2010 to renew their license and pay their license fee. Requirements to renew a teaching license are:

1. Have satisfactory teaching experience within the last five years;
2. Show evidence of meeting all ten Hawai‘i Teacher, Counselor or Librarian Performance Standards;
3. Professional Fitness clearance;
4. Pay the renewal fee.

For this reporting period, 920 teachers renewed their license. Since license expiration dates are cyclical, there was a decrease in the number of renewals in this reporting period. Over ninety percent (90%) of teachers used their employment evaluation as evidence of meeting the performance standards. HTSB continues to work with the DOE to ensure educators meet the performance standards using a combination of their new evaluations and professional growth plans. The new Educator Effectiveness System, combined with an individual’s professional development plan, validates that a person meets all ten performance standards over a five year period.

Appeals Heard by the Board 7/1/2013-6/30/2014: None
Requirements

The HTSB is responsible for the approval of teacher education programs based in Hawai‘i. HRS §302A-802 requires candidates to demonstrate competencies established by the Board. Programs are required to attain accreditation from a body approved by the US Department of Education to be eligible for state approval. There are currently two approved accrediting agencies: NCATE and TEAC. Currently, three programs, the University of Hawai‘i-Manoa, the University of Hawai‘i-West Oahu and iTEACH-Hawaii are NCATE accredited. The University of Phoenix-Hawaii is a candidate for NCATE accreditation. Kaho‘iwai and Hawaii Pacific University are TEAC accredited. Chaminade University of Honolulu, Leeward Community College, Teach for America-Hawaii, Brigham Young University-Hawaii, the University of Hawai‘i-Hilo are candidates for TEAC accreditation. Kahuawaiola Indigenous Teacher Education Program has not declared their selection yet. HTSB is assisting in reviewing training for multiple programs that plan to complete the accreditation process in the next two years.

The HTSB must review and approve teacher education units and individual licensure programs for provisional status before they are eligible to apply for national accreditation. In 2013-2014, the HTSB adopted new CAEP unit accreditation standards as well as new program, discipline specific standards for specific license areas.

The Board adopted the Stanford edTPA and the Educational Testing Service (ETS) Praxis Performance Assessment for Teachers (PPAT), two pre-service performance assessments that are required to be implemented by July 1, 2016 by all Hawai‘i EPPs. These assessments may be used immediately as an alternative route to licensure for experienced teachers or career changers who do not need to complete a full preparation program to be deemed ready to teach.

Training and Resources

The HTSB provides support to all Hawai‘i based teacher education programs by conducting training sessions in person and via teleconference and videoconference as well as arranging training by partner organizations, CAEP, ETS and Stanford edTPA/Evaluation Systems by Pearson.

EDUCATOR PROFESSIONAL DEVELOPMENT

NBPTS Summary

HTSB offered online informational and support sessions to teachers statewide. There were fifty-nine new NBPTS certified teachers in 2014 and eleven teachers who renewed their certification. Unfortunately, the National Board organization terminated its registration fee subsidy funding, so no awards were made this year.

Workforce Development Efforts

The HTSB continues to monitor the needs of public schools and encourages Hawai‘i based educator preparation programs to develop and offer programs for teachers in shortage areas.
Staffing

HTSB staff consists of the Executive Director, two specialists, secretary, administrative assistant, five licensing clerks and a Data Processing Systems Analyst. Currently, all positions are filled except for one clerk position.

Facilities

HTSB is conveniently located in Dole Cannery but also provides Skype meetings for Neighbor Island and worldwide license applicants and inquiries.

Data Systems

HTSB has continued its partnership with Hawai‘i Information Consortium (HIC), which developed both the teacher and administrative portions of the system and a rejuvenated website that served as a model for other state agencies and departments. The online licensing and payment system is heavily utilized and all applications and payments are expected to be completed online by July 1, 2015.
FINANCIAL REPORT

Expenditures and Revenues

HTSB became self-sufficient beginning July 1, 2012. Because of the rotating nature of license issuance and renewal, income is cyclical mainly over five years.

§8-54-1 Statement of purpose. (a) All of Hawai‘i’s public school children deserve to be taught by teachers who are qualified to practice the profession of teaching. The provision of quality education for all public school children is a critical function of state government. The highest standards must be applied to the training of teachers, the screening of applicants for employment and the continued employment of teachers. Teacher standards will also strengthen the school system’s accountability to the public by ensuring that qualified teachers are employed in the public school system.

(b) The purpose of this chapter is to set the standards by which public school teachers shall be licensed and relicensed. These standards shall be established by the Hawaii teacher standards board. [Eff 6/13/97; comp 7/18/98; comp 12/20/01; am and comp 8/13/04] (Auth: HRS §302A-803) (Imp: HRS §§302A-801 to -808)

§8-54-1.1 Authority. No person paid under the salary schedule contained in the unit 05 collective bargaining agreement shall serve as a teacher in the department or a charter school without first having obtained a license or permit from the board in such form as the board determines. The superintendent of the department of education and charter school administrator shall administer the emergency hire process in accordance with applicable provisions in sections 302A-801-808, Hawai‘i Revised Statutes and the standards provided in this chapter.

§8-54-2 Historical note.

The eighteenth legislature of the state of Hawaii enacted Act 240, which transferred the authority for setting public school teacher certification standards from the department of education to the Hawaii teacher standards board. Its aim was to accord the teaching profession a status comparable to that of other professions. The legislature’s action was consistent with efforts occurring nationally to establish standards to evaluate
teacher qualification for employment. The twenty first legislature of the State of Hawaii enacted Act 312, which transferred the authority for issuing and renewing teaching licenses from the department of education to the Hawaii teacher standards board.

§8-54-2.1 Applicability. Any action relating to the screening and hiring of teacher applicants by the department or charter schools shall be in accordance with the standards provided in this chapter.
